START HACK

Department Description

START Hack is an entrepreneurial Hackathon - But... what is a hackathon? Well, it is a **technical problem-solving competition** where a community of highly-driven students comes together to tackle some of the most significant societal issues. We're partnering with companies such as **Microsoft, Accenture, United Nations, Supercell & Co**. For us, this is the ideal way of bringing the two worlds - technology and business - closer together to foster entrepreneurial thinking and fuel technological innovation!

By joining our Hack Team, you will get the opportunity to be part of a **dynamic, challenging and fun environment** (I mean, what's work without fun, right?). As a member of our flatly-organized team you will, therefore, get to take on responsibilities and improve your soft skills in a professional environment. Being a Hack team member also means you are willing to shape an event that **empowers people to develop innovative ideas to change tomorrow**.

Your Profile

- You have a strong interest in technology and entrepreneurship
- You are open-minded and like having fun at work
- You are a team player and have good communication skills
- Good problem-solving skills
- You **do not need coding experience** (we let our participants do the coding)

Your Benefits

- Get in touch with **talented and passionate students** from all over the world
- Get to work with talented people in a professional and fun atmosphere
- **Gain knowledge** in all things technology
- A great amount of **ownership** of your projects
- Be embedded in the closely-knit **START Network** of successful entrepreneurs, investors and potential co-founders
- Sharpen your skills & prime yourself for your entrepreneurial career

Natalis Wirz

Managing Director | Hack

natalis.wirz@startglobal.org

Positions

Hack Relations
You will be responsible for **relationships between our Stakeholders** and START Hack.

- Building and maintaining relationships with participants
- Raising awareness about the START Hack and secure 2000+ applications
- Engaging with our community of aspiring tech entrepreneurs
- Ensuring a memorable experience during the event

Hack Partnerships
You will be in charge of **acquiring, developing and managing partnerships**.

- Getting to pitch in front of representatives of top tier companies
- Raising money to finance an unforgettable Summit x Hack 2023
- Working closely with leading companies to develop their START Hack cases

Hack Tech and Innovation
You shape the participants' **entire journey and experience**, from the application process on our website all the way to attending START Hack in St. Gallen in March.

- Being responsible for the Application Process of all participants
- Developing digital content ideas to generate an exciting platform experience
- Integrating online components into an offline experience
- Ensuring that all of our participants have the best possible experience on the platform
